

LORENA B. DELEJERO

Purok 1. Brgy. Sucol, Calamba City, Laguna | 09215924713 | lorenadelejero14@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Senior Information Technology student with a focus on System Analysis and Project Coordination. Proven ability to lead research teams in the development of complex, database-driven systems using PHP and Laravel frameworks. Experienced in managing technical documentation and performing system quality checks to ensure project objectives and academic standards are met.

TECHNICAL SKILLS

- **Languages & Frameworks:** PHP, Laravel, HTML5, CSS3, JavaScript, Tailwind CSS.
- **Database Management:** MySQL, Supabase.
- **Design & Prototyping:** Figma, Canva.
- **Tools:** Microsoft Excel (Intermediate), Word, PowerPoint.

SOFT SKILLS

- **Project Leadership & Coordination:** Proven ability to lead a research team, managing project timelines and ensuring all deliverables meet academic and technical standards.
- **Technical Documentation:** Skilled in drafting and refining complex technical papers, including system architecture reviews and formal thesis chapters.
- **Quality Assurance & Attention to Detail:** Experienced in "checking the system" and conducting system flowchart reviews to identify and correct functional discrepancies.
- **Stakeholder Communication:** Competent in presenting progress and technical designs during formal consultations with advisers and subject matter experts.
- **Team Collaboration:** Demonstrated history of working effectively with diverse groups, from academic research teams to fast-paced service environments.
- **Public Speaking:** Confident in delivering reports and presentations, as evidenced by successful thesis consultations and previous leadership roles.
- **Analytical Thinking:** Capable of evaluating system requirements and proposing digitized solutions for community-based centers.

TECHNICAL PROJECTS

Smart Enrollment System and AI Chatbot | Project Lead & Documentation Head -
Calamba Women's Center | 2026

- **Leadership:** Directed my capstone through the full lifecycle of the capstone project, from conceptualization to system flowchart review.
- **Quality Assurance:** Oversaw the "checking of the system" to ensure the **enrollment system, analytics** and **AI Chatbot** features functioned according to the project scope.
- **Documentation:** Managed the development of comprehensive technical papers, successfully finalizing Chapters 1–3 for formal advisory review.
- **Stakeholder Management:** Acted as the primary point of contact during consultations with the thesis adviser to refine system architecture.
